

# Anurag Kumar Tiwari

Data Science Undergraduate · Analytics & Visualization · Full Stack Engineering

[LinkedIn](#) [GitHub](#) [LeetCode](#) [Portfolio](#)

## SKILLS

### DATA & ANALYTICS

Python SQL Scikit-Learn ML Pipelines  
Statistical Modelling Data Cleaning  
Predictive Analytics

### VISUALIZATION & REPORTING

Matplotlib Seaborn Figma  
PDF Reports Data Storytelling

### ENGINEERING & TOOLS

React Flask FastAPI MongoDB  
MySQL AWS EC2 Docker REST APIs  
Node.js Tailwind

### SOFT SKILLS

Research Communication  
Team Leadership SEO/SEM

## EDUCATION

### B.Tech — Data Science

Newton School of Technology, Rishihood University  
2024 – 2028 **GPA 8.2/10**

### Intermediate (Class XII)

Divine Public School  
2022 – 2023 **80%**

### Matriculation (Class X)

Divine Public School  
2020 – 2021 **95%**

## CERTIFICATIONS

- Certificate of Participation — **Google Developers Group**, Visual Vortex 1.0 Hackathon (UI/UX), Nov 2024

## ACTIVITIES

- Director of Sponsorships & Partnerships — College Fest
- Product Manager & Maven — Dev Club
- Leadership & Website Lead — AIRIS (AI Club)
- Junior Radio Jockey — Loudspeaker 90 FM, Gorakhpur (6 months, 2019)

## PROFILE

Data Science undergraduate with proven experience building **end-to-end analytical systems** — from ML regression pipelines and audio analytics tools to large-scale backends handling 10K+ concurrent users. Comfortable across the full data lifecycle: collection, preprocessing, modelling, visualization, and insight delivery. Seeking to apply quantitative and engineering skills in **Data Visualization & Analytics**.

## EXPERIENCE

### MERN Intern · Sahay AI Intelligence Technologies

Jun – Aug 2025 · Remote

[React](#) · [Express.js](#) · [FastAPI](#) · [Python](#) · [AWS EC2](#) · [Docker](#) · [CI/CD](#) · [Mavlink](#)

- Led a team of 4 interns to ship AI-driven products including control systems, AI platforms, and mobility solutions.
- Engineered scalable Python/FastAPI backends handling **10,000+ concurrent users**; built responsive React frontends.
- Set up AWS CI/CD pipelines with Docker & YAML; implemented Mavlink-based drone telemetry & control features.

### Volunteer — Web & Android Dev · SvaNiti NGO

Oct 2025 – Apr 2026 · Remote

- Managed web infrastructure for a Public Policy NGO; built and maintained data-facing pages over 6 months.

## PROJECTS

### Bhoolekh — Property Price Estimation

[Scikit-Learn](#) · [React](#) · [Flask](#) | Apr 2025

ML regression pipeline predicting Bengaluru property prices with **85% accuracy**. Full pipeline from raw data → feature engineering → model → Flask API → React visualisation UI.

### Esteemed — Behavioral Tracker

[Next.js](#) · [Express](#) · [MongoDB](#) · [React Native](#) | Nov 2025

Addiction recovery app with urge logger, relapse tracker, and an **insights dashboard**. Reached **10K page views** and 250 registered users.

### Call Insight Generator

[React](#) · [Express](#) · [MongoDB](#) · [Gemini](#) · [DeepGram](#) | Apr 2025

Audio analytics tool for customer support teams. Transcribes calls via DeepGram AI, generates structured insights with Gemini AI, and **exports analytics as PDF reports**.

### Across Device — Cloud Storage App

[HTML](#) · [CSS](#) · [JavaScript](#) · [Django](#) | Jun 2024

Cross-device data store for text, links, and files. Includes **activity logs**, in-app messaging, and collaborative project management across devices.
